SUMMARY

Senior Cloud Operations / DevOps / SRE engineer with 7+ years running production infrastructure and multi-cloud platforms across AWS, Azure, and Google Cloud. Experienced in Kubernetes operations at fleet scale, infrastructure automation, observability, and incident response for enterprise SaaS environments, with certifications spanning AWS, Azure, Google Cloud, Kubernetes, Linux, and networking.

EXPERIENCE

Strategy

Senior Cloud Operations Engineer II

Remote

Jan 2025 – Present

Senior Cloud Product Specialist (Cloud Operations, DevOps & SRE)

Mar 2024 – Jan 2025

- Own production reliability and cloud operations for a multi-tenant SaaS platform (AWS, Azure, GCP), supporting 300+ customer environments across 20+ regions at 99.95% availability.
- Operate and troubleshoot Kubernetes workloads across EKS, AKS, and GKE, managing 50+ clusters and resolving issues involving compute, networking, storage, ingress, DNS, and TLS.
- Automated provisioning, upgrades, health validation, and certificate rotation using Terraform, Helm, Argo Workflows, Python, and Bash, saving an estimated 45 hours per month.
- Improved monitoring coverage using Prometheus, Grafana, Grafana Alloy, and OpenTelemetry, reducing mean time to detect production issues by 35% and mean time to resolution by 28%.
- Led investigation and recovery for 40+ high-priority incidents annually across engineering, networking, security, and database teams, maintaining 95%+ SLA compliance.
- Strengthened platform security through IAM reviews, vulnerability remediation, certificate lifecycle automation, and network-policy enforcement, closing 90% of critical findings within SLA.

Strategy

Cloud Product Specialist (Cloud Operations & DevOps)

Remote

May 2022 – Mar 2024

- Supported production operations for 200+ enterprise SaaS environments (AWS, Azure, GCP), handling an estimated 1,200 operational requests and incidents annually.
- Automated routine deployment, maintenance, backup, and validation tasks using Python, Bash, PowerShell, and cloud CLIs, reducing execution time from an average of 90 minutes to 20 minutes.
- Built and enhanced CI/CD and infrastructure workflows using Git, Jenkins, Helm, Terraform, and Argo CD, increasing deployment frequency by 40% and reducing manual deployment errors by 35%.

Verizon

Systems Engineer

Ashburn, VA

Jan 2021 – May 2022

- Developed virtualization solutions across VMware, OpenStack, and type-1 hypervisors (VMware ESXi, OpenShift, Hyper-V, KVM, Oracle VM, Xen, Citrix), and deployed monolithic, microservices, and containerized applications using Docker, Kubernetes, and Docker Swarm.
- Collaborated with DevOps teams to build automation using Ansible and Jenkins, and developed Python and shell scripts to expedite deployment and system-administration tasks.
- Implemented and troubleshoot network security devices (Cisco ASA firewalls, site-to-site VPNs, NAT, IDS/IPS) and complex outages involving DHCP, DNS, TCP/IP, load balancing, IPsec, and routing.

Amazon Web Services (AWS)

Cloud Support Engineer

Herndon, VA

Nov 2018 – Nov 2020

- Supported AWS Compute, Storage, and Operations services (EC2, VPC, Lightsail, S3, EBS, EFS, ECS, Systems Manager, CloudWatch) for business-critical customer workloads, diagnosing Linux (Ubuntu, CentOS, RHEL, Amazon Linux), TCP/IP, DNS, SSH, routing, and firewall issues.
- Guided customers on infrastructure and delivery automation using CloudFormation, Ansible, Puppet, Jenkins, Python, and Bash, accelerating migrations and reducing recurring administrative work.

SKILLS

- **Cloud Platforms:** AWS (EC2, VPC, Lightsail, S3, EBS, EFS, ECS, EKS, IAM, SSM, Lambda, CloudWatch, CloudFormation, ELB, Route 53), Microsoft Azure (AKS, Azure DevOps), Google Cloud (GKE)
- **Containers, Orchestration & Virtualization:** Docker, Docker Swarm, Kubernetes, Helm, VMware, OpenStack, OpenShift, Hyper-V, KVM, Citrix | **Scripting & Automation:** Python, Bash/Shell, PowerShell
- **IaC & CI/CD:** Terraform, CloudFormation, Ansible, Puppet, Jenkins, Argo CD, Argo Workflows, Git
- **Monitoring & Observability:** Prometheus, Grafana, Grafana Alloy, OpenTelemetry, Splunk, CloudWatch | **Operating Systems:** Linux/UNIX (RHEL, CentOS, Ubuntu, Amazon Linux), Windows Server, Cisco IOS
- **Networking & Security:** TCP/IP, OSPF, BGP, EIGRP, DNS, TLS/SSL, IPsec, VPN, Load Balancing, IAM, IDS/IPS

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional | AWS Certified Generative AI Developer – Professional (AIP-C01)
- Google Cloud Professional Cloud Architect – Oct 2023 | Microsoft Certified: Azure Administrator Associate (AZ-104) – Jul 2023
- Certified Kubernetes Administrator (CKA) – Nov 2022 | Red Hat Certified System Administrator (RHCSA) – Oct 2021
- Cisco CCNP & CCNA, Routing & Switching – Jul 2017 / Sep 2015; CCNA Security – Nov 2015 (ID CSC012844389)

EDUCATION

University of Maryland, College Park, MD — MS, Telecommunications Engineering (GPA 3.90/4.0)

May 2018

University of Mumbai (TSEC) — BE, Electronics & Telecom Engineering (GPA 8.71/10)

Jun 2016
